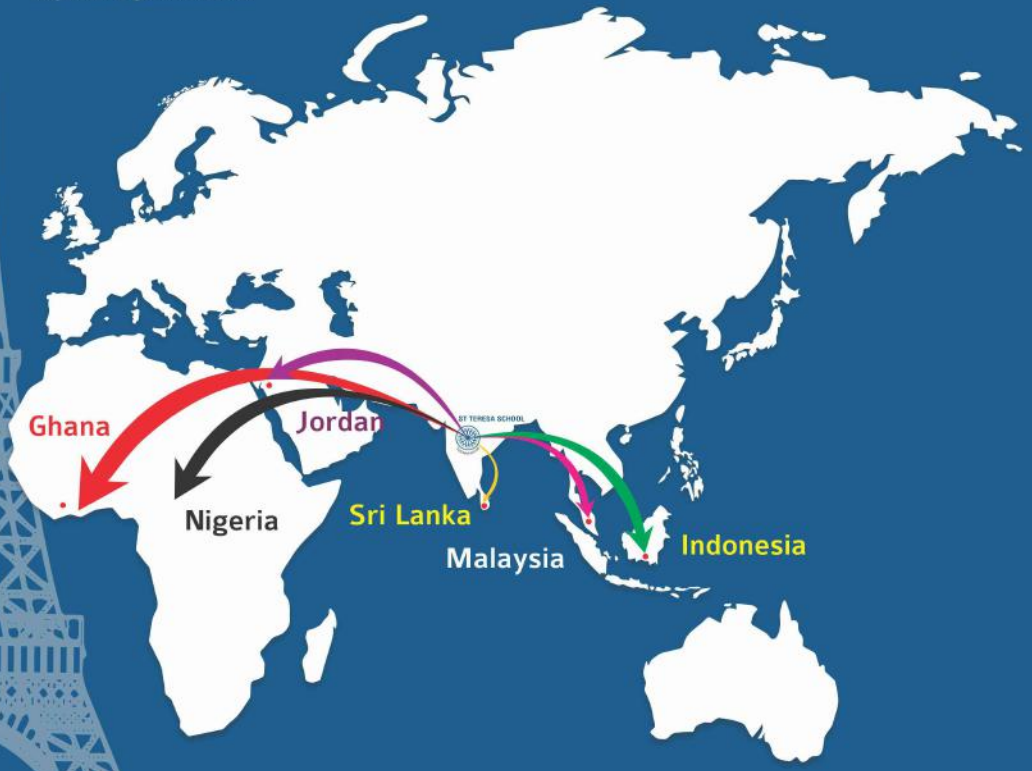
ST TERESA SCHOOL *Goes* GLOBAL

Keeping in view our endeavors to ensure a global curriculum, the school has collaborated with various schools worldwide. The school has carried out various cultural exchange program & project with schools from following countries:

• MALAYSIA • JORDAN • INDONESIA • SRI LANKA • NIGERIA • GHANA

Under the initiative, the students from these countries interacted with our students, showcased their culture, folk dance and customs, while our students shared Indian values and culture.
It enables our students to learn about versatile global culture at early stage of their life , which helps them to be responsible global citizens.



Mother Teresa was an epitome of compassion, goodness and godliness. As an apostle of love, hope and mercy, she had been the mother in the truest sense to the millions and millions of destitute, deprived and dying in India. She was awarded Nobel Peace Prize in 1979 for her outstanding services to humanity, and Bharat Ratna in 1980. She was born in Macedonia to Albanian parents in 1910, but chose India for her missionary activities. She later became an Indian citizen. She founded schools, hospitals, dispensaries, shelters and homes for the destitute, aged lepers, dying and the neglected. She founded the Missionaries of Charity to serve the suffering humanity. She passed away at the age of the 87 on September 5,1997 in Kolkata, causing a tragic and irreparable loss to the entire world. The death of this saint of mercy, plunged millions of people into extreme grief and sorrow across the globe.

Here below is given an address delivered by her at the National Prayer Breakfast sponsored by the US Senate and House of Representatives.

We have been Created to Love

We must remember that love begins at home and we must remember that 'the future of humanity passes through the family.' Our children depend on us for everything - their health, their nutrition, their security, their coming to know and love God. For all of this, they look to us with trust, hope and expectations.

We are talking of love of the child, which is where love and peace must begin. The child is God's gift to the family. Each child is created in the special images and likeness of God for greater things - to love and to be loved.

"It is not how much we do, but how much love we put into what we do. We are all one heart full of love, that we may bring that joy of love everywhere we go. And my prayer for you is that through this love for one another, for this peace and joy in the family, that you may grow in holiness. Holiness is not the luxury of the few; it is simply duty, for you and for me, because Jesus has very clearly stated, "Be ye holy as my father in heaven is holy". So let us pray for each other that we grow in love for each other, and through this love become holy as Jesus wants us to be for he died out of love for us."

Mother Teresa
(1910-1997)

Philosophy & Vision

St. Teresa School is a
temple of learning
Where you can
Put in your toddlers
And watch them stride out boldly as
"Remarkable Individuals"

The decision you take today, right now, regarding your child will have an accumulated impact on their future.

So give your child a head start in life by gifting them a future at ST. TERESA SCHOOL, a school with a global vision providing real - life education where the wonder years of your children are shaped in such a way that they become confident independent individuals.

We believe children are like tender soft clay and most importantly malleable. When you plan to take them real early in their lives, every bit of knowledge imparted by their teacher is comparable to the masterful touches of a skilled potter. As without education child is like a marble in the quarry which shows none of its inherent beauties till the skill of the polisher/teacher fetches out the colours and makes the surface shine to be later known as his character.

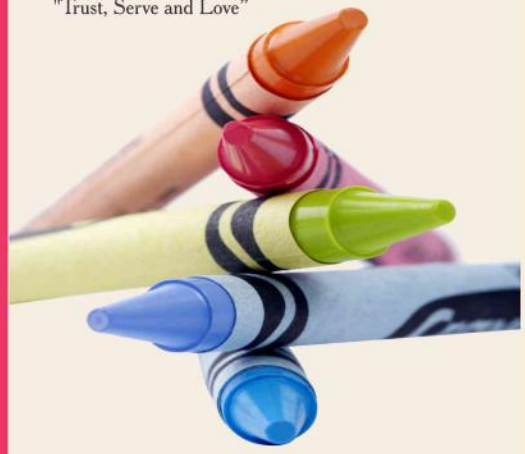
"Nothing succeeds like success". But the success comes after a careful planning and execution carried out through out the session. For attaining success, the dedicated staff & committed management makes continuous efforts. The combined efforts of all of us could light the fire for the good of the generation.

Our Mission

The aim of the institution is to impart sound education inculcating among children, the habit of co-operation, discipline, self-confidence, regularity, punctuality with the objective to attain greater heights.

Our Motto

"Trust, Serve and Love"



President's Message

"Knowledge is Power"

This statement is a universally acknowledged truth. It assumes greater importance in the 21 st century where the whole world is shaping into a knowledge world. So a school must aim at empowering its students with knowledge which enables them to compete in the present competitive world.

During recent times there has been unprecedented explosion of information. Such explosion in all the fields has made it compulsory that we keep pace with the changes taking place. The school must promote proper understanding of concepts, problem solving techniques and art of critical thinking.

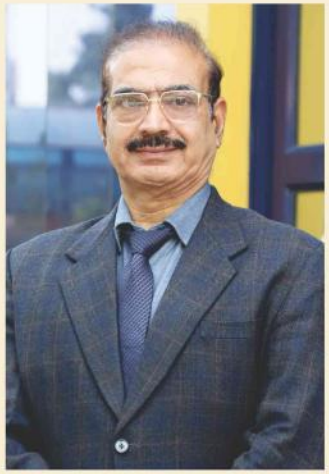
STS aims at developing fully the mental, physical and spiritual potential of each child. From the portals of STS, well-balanced integrated personalities with an amalgamation of east and west turn out. Ample opportunities and stimuli are provided for the physical, mental and spiritual growth.

Our students are taught to aim always "Towards Greater Heights". This helps them to excel in life.

R.R. Khanna

President

Director's Message



St. Teresa School continues to lead the way in the field of quality education. It has progressed in the task of imparting education which is not only modern in its approach but also based on the ideals and rich culture of our country.

Education is the process of exposure, exploration, experiment and experience. Our aim is to develop young minds by spreading knowledge and dispelling the darkness within and thus illuminating world outside.

STS endeavours to provide education in the truest sense by training them to face challenges and complexities of life. Emphasis in the school is laid not only on the academic excellence but also on the overall development.

It is and will continue to be a mission of St. Teresians to emerge towering personalities and make the nation proud. Towards the accomplishment of this mission, all our endeavours are synergised.

Vijay Kumar Gulati
Director

Director Message

Dear Parents,
Education is the right of each and every child, irrespective of caste, creed and religion. St. Teresa welcomes all the students to harness their capabilities and potential not only in academic skills but also in life values and vocational skills.

Education survives and emerges where everything else fails. It is a priceless gift of wisdom, a gift more precious than any materialistic gain.

The art of instruction is extremely subtle and delicate but a good school practices this art effortlessly. St. Teresa School harmoniously blends formal with informal information.

In this endeavour the school is supported by outstanding infrastructure where the classes and laboratories are well equipped. Thus our children stride out of school confident & well adjusted, ready to take their place in this competitive global world.
St. Teresa School is committed to growth, innovation and maintaining high standards of educational programmes mended with Indian cultural heritage. Here we encourage our students to dream beyond horizon.

The school enjoys a caring and open environment by which I mean an organization where every member enjoys a sense of freedom of mind and spirit thus turning school education into an enjoyable experience for everyone.

Vibha Khanna
Director

Principal Message

The purpose of education is not just to produce academicians but also to develop humane and sensitive citizens. At St. Teresa School, we ensure that a congenial environment for learning is maintained while making sure that children have enough opportunities to develop their personal and inter-personal skills.

Our teachers are well qualified & share a passion for teaching, thereby bringing out the best in both themselves and their students. We edify our students in classical as well as contemporary models of learning while giving them a solid foundation in cultural insights of the world.

We pride ourselves on creating a culture of learning where students are free to pursue their interests in a variety of fields while developing their character as well. Delayed gratification, integrity, civic consciousness and the willingness not to give up, are the values that we seek to inculcate in our students. With extra-curricular classes, a strong emphasis on communication skills and activities meant to foster cultural understanding, the students of our school emerge as elucidated and responsible citizens of the world.

St. Teresa School is more than an ordinary school. We encourage students to embark on difficult, challenging journeys that stretch their potential. But we do so with an unyielding faith in the capacities of our teachers and students. The management and staff of St. Teresa School is deeply committed to work tirelessly in order to make our students' learning experience an exciting and elucidating one.

If all the stake holders in education - parents, students and the school share this common passion to create an exciting learning path, we have no idea that our students will achieve laurels they never have before; and a stronger, more committed generation will emerge after going through the canals of learning with us.

Renu Srivastava
Principal

About School

St. Teresa School is an English Medium co-educational and C.B.S.E. affiliated institution. It is managed by Boman charitable trust, a society consisting of educationists, philanthropists and eminent personalities.

We at St. Teresa School aim at developing mental and physical ability of each and every individual of our organization.

It is our commitment to turn out from the portals of St. Teresa School, well balanced, integrated personalities, with an amalgamation of the east and the west. The school intends to set optimism in its students so that they learn & acquire the positive traits of life as how to learn, anywhere, anytime thus enriching their skills continuously.

St. Teresa School is housed in a world class sprawling campus spread across over a few acres of land . The entire infrastructure is planned so meticulously that every brick, in its spirit, breathes education. Architecturally congenial and illuminated classrooms, scientifically planned library, spacious laboratories providing hands on learning, centrally located administrative block to provide guidance, state-of-the- art sports complex, technically advanced computer labs, a grand audio-visual room, and a carefully constructed multipurpose complex to facilitate dance, debates, seminars, and other creative activities .

Infrastructure

- Architecturally well-designed buildings sprawling in an area of few acres with spacious and well-ventilated classrooms.
- Play ground suitable for all types of games and sports providing stress free environment.
- Totally safe & secure environment with round-the clock security.

Location

St. Teresa is located on a sprawling land in Shakti Khand-II, Indirapuram, amidst picturesque surrounding. It is in the city yet away from hustle, bustle and noise.

Atal Tinkering Lab

We are now the part of a mission under the Atal Innovation Mission of the Government of India, to nurture an innovative mindset amongst high school students across the length and breadth of students community.

Pre Primary Section

We are providing our students with best education and excellent environment for fun filled learning Our's is student centric approach where we emphasize upon "Learning while playing." They grow in free environment where they learn to express themselves and we identify their unique talent in warm, conducive, healthy and apt environment.

Primary Section

First five grades of elementary school are the initial learning years for our young scholars from baby steps to a big leap primary school is the threshold, building basic framework for the child's future. We help them develop basic skills nourish their physical and mental growth exposing them to learning and social behavior.

Smart Classes

We have smart classes in collaboration with Educomp which help students to clear the concepts. Audio Visual Room is equipped with LCD project where Pre Primary children learn rhymes, other concepts and watch animated cartoons through interactive CDs etc. At primary & secondary level students learn through power point presentations and various educational CDs.

English Language Lab

In the "English Savvy Era" our lab omit enhances the children's vocabulary, improves pronunciation, articulation and fluency through digital audio-visual aids. Our lab is equipped with all the modern facilities to groom the children for better communication to become global citizens.

Math Lab

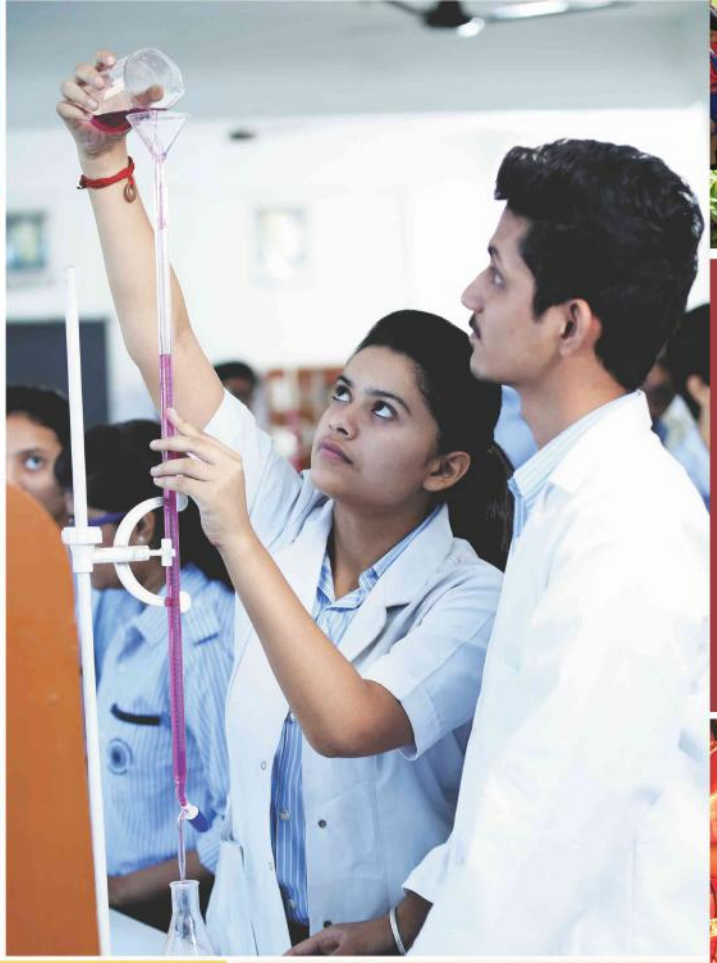
Mathematics is a subject which is very closely associated with life's day activities. To clear the concept & make the subject interesting we have set mathematics lab. Students perform activities under the supervision of proficient teachers.

School Library

The school maintains well stocked library with the collection of story books, reference books on every subject, illustrated dictionaries, encyclopedias, magazines and newspapers. Library is constantly enriched by the latest editions and new arrivals. Students are encouraged to use the library to enhance reading habits.

Auditorium

Well equipped with the latest audio- visual facilities and seating capacity of around 400, the centrally air-conditioned Auditorium hosts a variety of cultural events to provide a platform for showcasing the talent of our students.



Shooting Range

With 12 target boards, fully air-conditioned hall and training by the National level coach, the school vows to cultivate the talent of shooting amongst the youth so that they improve their concentration and sense of discipline.

Science Lab

The School has modern and well equipped science laboratory. It provides ample opportunities to do practical work and conduct scientific experiments. Latest equipments, models, slides, charts and other educational aids are provided by the school lab.

Activity Room

Students are encouraged to participate actively in vocal & instrumental music, dance, painting, craft and literary activities like declamation, debate, quiz and recitation etc.

Electricity Back-up

To supplement the main power supply, the school has made arrangement for power backup through generator.

Sick Bay

School has always been extra sensitive and careful about the health of its most cherished assets- our children and hence, have taken additional care in providing medical aid in the school. We have well equipped Medical and Nursing care SICK BAY to take care of any eventuality.

School Transport

The school has its own buses in and around the city. The buses are well maintained.

Extra Curricular Activities

Students are encouraged to participate actively in vocal & instrumental music, classical & western dance to help their talents bloom. Such activities help them to know & appreciate our rich cultural heritage.

Art Integrated Learning

Teaching model, based on learning through art is implemented as a medium of teaching-learning process. As a key to understanding concepts and inculcating values, art integrated learning is an integral part of our knowledge imparting process where students are engaged in art activities and comprehend various levels of understanding through art integrated learning.

Mid-day Meal For Pre- Primary Children

The school has set up a state- of-the-art canteen with the vendor being one of the most reputed ones. The school provides mid-day meal to pre -primary students and caters to the rest of the school students during the year. The canteen is carefully maintained for complete hygiene and is regularly monitored by a steering committee.

Academics

PRE PRIMARY WING - The approach at Pre Primary is 'Child Centered'. "Play While Learn and Learn While Play" is the main objective at this level. Emphasis is given on imparting knowledge of the world around the child, developing linguistic & creative skills, fine & gross motor skills.

PRIMARY WING - The approach at this level is 'Learning by Doing'. A thematic approach is followed to stimulate children through interactive sessions, projects, surveys and other innovative activities. Emphasis on participation of each student in the curricular & co-curricular activities is given along with the strong sense of individuality.

SENIOR WING - It follows an enriched curriculum with in-depth knowledge of the subjects. Presentations, surveys, research work are given the utmost importance. Besides following the NCERT guidelines, the school keeps an open mind to the changing educational patterns. It stresses upon developing right study habits, value education, overall personality development and coping with peer pressure at this stage.

GAME & SPORTS

In St. Teresa there is a great emphasis on physical education & physical fitness because we believe in "Healthy Mind exists in a Healthy Body". We believe that through sports we can develop leadership skills in our students and make them focussed, disciplined and fit. School has developed arena of sports as a medium of unleashing maximum potential of students ensuring holistic development of an individual.

CHOICE OF SPORTS AND GAMES 14

The school is equipped with State of the Art International Standard Sports Infrastructure which includes Synthetic Basketball cum Lawn Tennis Court, Two Indoor Synthetic Badminton Courts, Cricket Turf with Bowling Machines and one of its kind Gun Shooting Range. Along with this school has internationally certified coaches to ensure best training and guidance for our students.
