INDIRAPURAM, GZB.

SESSION: 2024-25

(Cir- STS/PR/24-25/002) SUMMER HOLIDAY HOMEWORK

Class – III

Summer vacations are synonymous with fun, frolic, getting up late in the morning, playing for longer hours with friends, exploring new places and watching fun filled shows on television. But summer vacations can also be a time for learning with lots of activities around.

To balance the situation and ensure that the time spent is not wasted, we have come up with an ideal holiday homework—it aims to

create a spirit of enquiry, creativity and sensibility.

To add to the fun, the school has carefully and meticulously designed the holiday homework to ensure that each child explores creativity and skills through interesting activities.

Once again, we seek your partnership to fine tune the value system and help children become exemplary human beings.

Dear Parents,

Let's share some tips to make this period fruitful and happy period for them.

- ❖ Knowledge is power. Therefore encourage your child to cultivate the reading habit, because it does not only enhance the knowledge acquired but also develops the vocabulary, language skills and improves spellings.
- ❖ Help your child to get up early even when the school is off. Once the habit is built it sustains forever.
- ❖ “A healthy mind resides in a healthy body”. Encourage your child to go out and play because sports instill discipline, generate sporting spirit, channelize energy constructively.
- ❖ Sensitize your child about the rich culture and heritage by watching different informative channels like “The National Geography”, “Animal planet” and so on.
- ❖ Develop healthy eating habits. Plan and discourage eating food with empty calories. Teach them a recipe or two to hone their culinary skills.

Have heart to heart discussions with your child as the parental bond has no string of curriculum attached. Children see their parents, teachers and others from close and learn things from them. It is our responsibility to be the role model and teach moral values like showing gratitude for the good things, cheering others, talking politely, controlling anger, having patience and lot more attached. Let children of today emerge as responsible citizens of tomorrow.

## MATHS

Numbers are the primary component in the daily functions of our lives. These are consistently used in every area for basic tasks. Hence, numbers are all around us and we see them daily in all sorts in different ways.

Dear students, show your enthusiasm and excitement by doing these fun-filled activities given below:

### Activity 1

There are real life situations that rely on numbers. One of these situations is shopping. Visit any shop note down price of 8 to 10 items (price of each item should be in 4-digit number. Now arrange these numbers in ascending and descending order. Write these in the scrap book.

### Activity 2

3	6	1	8
---	---	---	---

Make five different 4-digit numbers from the above digits. In the scrap book, write the successor and predecessor of the numbers.

4-digit Number	Successor	Predecessor

## EVS

### Activity 1

Teaching children about their traditions helps them connect with their roots and understand their cultural identity.

Traditional dish is often a cornerstone of a culture's identity. It reflects the unique flavor, ingredients, cooking methods, and dining rituals passed down through generations.

Take the help of your mother or grandmother to select a traditional dish of your origin (Tamil Nadu, Kerala, Punjab, Bengal, Assam... and so on)

Help your mother and grandmother in preparing the dish. Click pictures of this grand moment. Share your recipe and click pictures as you savour the delicacy along with your family members and paste in your scrap book.

### Activity 2

“Home is where one starts from” and there is no greater joy than welcoming a guest into our home. So welcome your guests by making a beautiful welcome door hanging. Prepare the door hanging with the best out of waste materials. Click and share the pictures in Google classroom.

### ENGLISH

**Activity 1** Reading is an exercise for the mind. It helps us to calm down and relax. It improves vocabulary, develop critical thinking skill, builds confidence etc.

Students will read anyone ‘**Moral based story.**’ They will write the Title of the story, Author’s name and its review in the scrap book.

Make a beautiful eco-friendly bookmark of the character you like the most from the story.

### Activity 2

"Every morning brings new potential, but it's what we do with it that makes a difference." It is wonderful to wake up in the morning with things to look forward to!

So, wake up early in the morning and go to a park. Observe the sunrise and things around you. You have to note down the name of the things, people, birds and animals you have observed. Finally you will sort the names under the heading of Proper Noun, Common Noun and Compound Noun in the scrap file. Write five names for each of the category.

Example-

Proper Noun	Common Noun	Compound Noun
1.		
2.		
3.		
4.		
5.
